

# MT Series

## Matrix Turret Rewinder

### Overview

The MT is designed to mount over a press and eliminates press stops for removal of matrix waste. Combined with a KTI butt splicer and turret rewinder, the MT is the final step to a non-stop label press.

### Standard Features

- Automatic transfer to new core at programmed roll diameter
- Automatic speed matched transfer at process line speed
- Two spindle configuration
- Non-stick plasma coated idler rollers
- Taper or linear winding tension
- Reduces loss of climate controlled air typical with vacuum systems
- PLC Controls with touch screen
- Remote diagnostics ready
